ANNUAL REPORT ON TOBACCO STATISTICS, 1939

Prepared by

the

Agricultural Marketing Service 1/

- - -

This is the fourth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935. The first three are United States Department of Agriculture Statistical Bulletins 58, 63, and 67; obtainable from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents a copy.

This report is now issued by the Agricultural Marketing Service to which the service and regulatory Activities, formerly in the Bureau of Agricultural Economics, were transferred July 1, 1939, by authority in the Agricultural Appropriation Act.

^{1/} This bulletin has been compiled under the direction of a tobacco statistics committee representing the Agricultural Marketing Service, Bureau of Agricultural Economics, Office of Foreign Agricultural Relations, and Agricultural Adjustment Administration. The members of this committee are Charles E. Gage, chairman; J. V. Morrow, secretary; Marvin M. Sandstrom, John A. Hicks, O. C. Stine, B. S. White, Jr., L. A. Wheeler, and W. G. Finn. The compilations were made by Alice Wolfe, Claudia Thomson, Vivian M. Behenna, and Mary A. Malanphy.

Introduction -----	1
Brief classification of leaf tobacco -----	3
Acreage, production, and farm value:	
United States, by classes, types, and States -----	5
United States, total by States -----	12
Foreign, United States, and world production, totals -----	15
Foreign and United States, production of flue-cured -----	16
Prices, leaf:	
By weeks, types, and grades -----	17
By seasons, types, and grades -----	23
Prices, products:	
Wholesale -----	33
Retail -----	34
Sales:	
By types and markets -----	35
Country sales -----	39
Income:	
Cash to growers, by classes and types -----	39
Analysis of cigar-leaf grades:	
Connecticut shade-grown -----	40
Stocks:	
Unstemmed and stemmed, total by quarters -----	42
Converted weight bases, by types and quarters -----	43
By types and groups of grades, by quarters -----	56
Foreign-grown cigar-leaf in the United States -----	69
Consumption:	
Disappearance, farm-sales weight, by types -----	70
Tax-paid withdrawals by products and months, United States -----	73
Tax-paid withdrawals, by months, of products from the Philippine Islands -	74
Tax-paid withdrawals, by months, of products from Puerto Rico -----	75
Per capita, United States -----	76
Wages:	
Manufacturing industries -----	77
International trade:	
Annual, by principal countries -----	78
Annual, by country of origin and destination -----	79
Exports:	
Leaf, by countries and types -----	95
Leaf, total by types, crop year -----	98
Leaf, total by types, calendar year -----	99
Products, total including shipments to noncontiguous territories -----	99
Imports:	
By classes and countries -----	100
By products and countries -----	101
Tariffs:	
Rates on imports into the United States -----	102
Foreign rates on imports from the United States -----	104
Taxes and revenue:	
Current rates of State tax, by products -----	112
State receipts -----	114
Internal revenue receipts, by products -----	115
Agricultural Conservation Program:	
Allotted acreage, and acreage on applications for payment -----	116
Marketing quota, Burley -----	117
Marketing quota, fire-cured and dark air-cured -----	117

I N T R O D U C T I O N

This report, the fourth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935, is now issued by the Agricultural Marketing Service to which the service and regulatory activities formerly in the Bureau of Agricultural Economics, were transferred July 1, 1939, by authority in the Agricultural Appropriation Act.

The series is continued in a broad, comprehensive coverage of tobacco statistics with tables based on data gathered and compiled by the Department of Agriculture, and with tables compiled from data of the Department of Commerce, the Bureau of Internal Revenue, the Bureau of Labor Statistics, and other official sources both in this country and abroad. The 5-year and the annual tables of the series have been brought up to date. New tables have been added showing marketing quotas for Burley and fire-cured and dark air-cured tobacco, and country sales of leaf tobacco in the Types 22 and 23 fire-cured districts. The table on per capita consumption has been revised back to 1900; scrap chewing tobacco has been separated from smoking and added to chewing tobacco on an estimated basis 1900-30, and on a reported basis 1931 to date. The tables on leaf tobacco used and tobacco products manufactured have been omitted as no new data were available at time of publication. The table on quantities used and estimated expenditures for tobacco products has been omitted until further study can be made of price data. The table on production of tobacco in specified countries has been limited to show flue-cured tobacco only until a further classification of foreign-grown types of tobacco is established. The table supplied by Agricultural Adjustment Administration showing base acreage has been changed to show acreage allotments.

A study of the tables shows that the total value of the tobacco crop in 1938 was around 49 million dollars less than the total value of the 1937 crop. Prices were slightly lower in 1938 considering the types as a whole. Consumption of tobacco products was maintained with a slight increase. Cigarette consumption as indicated by tax-paid withdrawals was 2.2 percent above the 1937 withdrawal figure, and cigars 1.7 percent above. Reports not available in time for inclusion in the following tables indicate that the manufactures of both smoking and scrap chewing tobacco in the first 10 months of the fiscal year 1938 were above those of the same period of 1937; also that exports of flue-cured tobacco showed practically no increase in 1938, but that exports of Kentucky, Tennessee, and Virginia fire-cured were considerably higher. Stocks of leaf tobacco owned by dealers and manufacturers were higher in each quarter of 1938 than they were in the corresponding quarter of 1937.

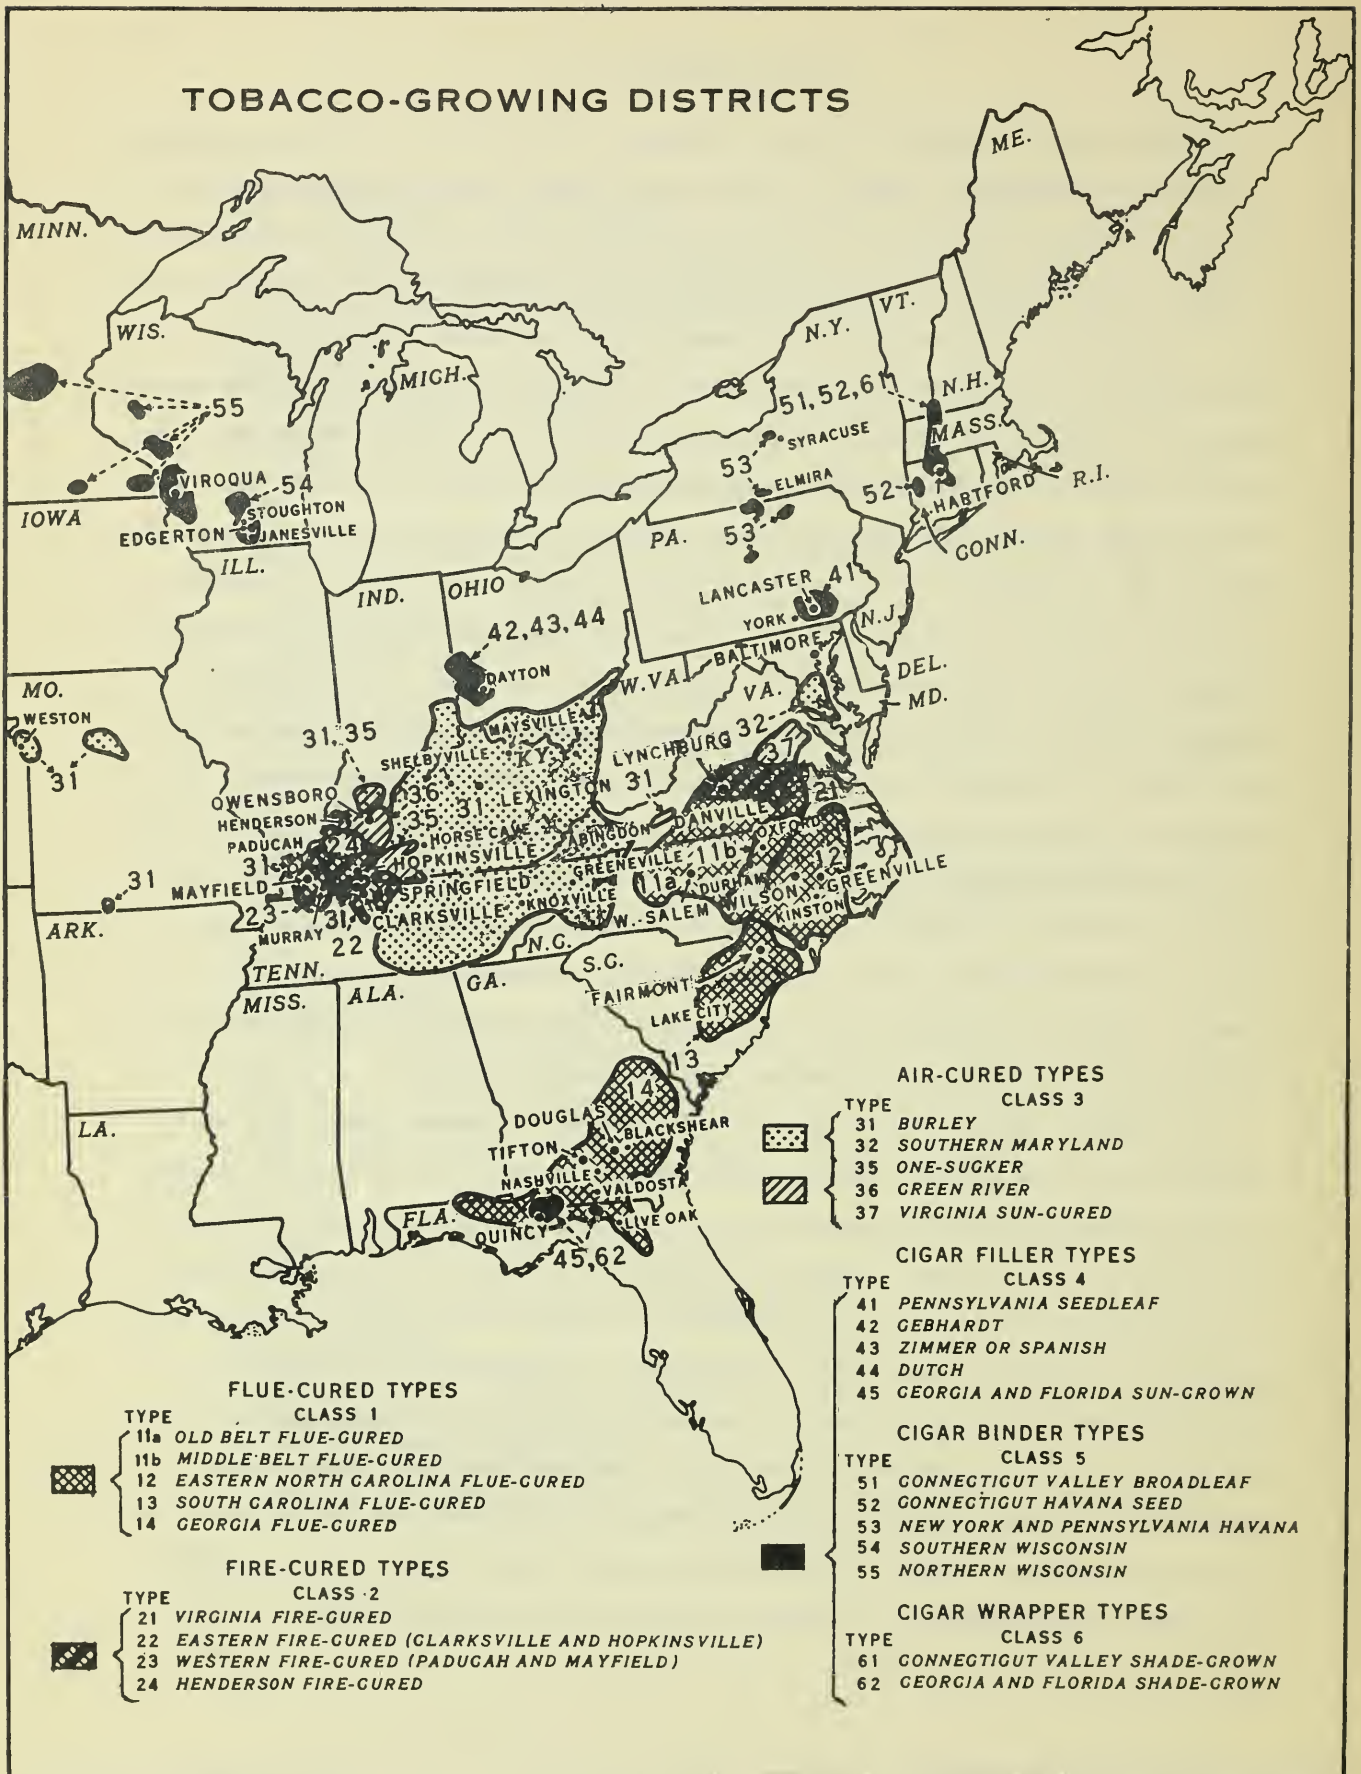

FIGURE 1

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes, types, and groups)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

Groups applicable to Types 11, 12, 13, and 14:

A, wrappers. B, leaf and smoking leaf.
C, cutters. X, lugs and primings. S, scrap.
N, nondescript.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, Murray, and Paducah; produced in a section between the Tennessee, Ohio, and Mississippi Rivers in western Kentucky and northwestern Tennessee.

Type 24: Henderson Stemming or Northern fire-cured; produced in Webster, Hopkins, McLean, Union, and Henderson Counties of Kentucky.

Groups applicable to Types 21, 22, 23, and 24:

A, wrappers. B, heavy leaf. C, thin leaf.
X, lugs. S, scrap. N, nondescript.

CLASS 3, AIR-CURED TYPES

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Groups applicable to Type 31:

A, wrappers. B, bright leaf, red leaf, and tips. C, lugs and cutters. X, trash and flyings. S, scrap. N, nondescript.

Type 32: Southern Maryland; produced in five counties of southern Maryland - Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

Groups applicable to Type 32:

B, heavy leaf or dull crop. C, thin leaf or bright crop. X, seconds and ground leaves.
S, scrap. N, nondescript.

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

Groups applicable to Types 35, 36, and 37:

A, wrappers. B, heavy leaf. C, thin leaf.
X, lugs. S, scrap. N, nondescript.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.

Groups applicable to Type 41:

B, binders or tops. C, fillers (farm wrappers).
X, stemming grades. Y, farm fillers or ground leaves. S, scrap. N, nondescript.

Type 42: Gebhardt; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 43: Zimmer; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 44: Dutch; produced in the Miami Valley section of Ohio.

Groups applicable to Types 42, 43, and 44:

C, fillers (farm wrappers). X, stemming grades.
Y, farm fillers or ground leaves. S, scrap.
N, nondescript.

Type 45: Georgia and Florida sun-grown; produced in southwestern Georgia and north-central Florida.

Groups applicable to Type 45:

B, binders. C, fillers. X, stemming grades.
Y, ground leaves. S, scrap. N, nondescript.

Type 46: Puerto Rican sun-grown (including primed (Deshojado) and stalk-cut (Mata)); produced on the island of Puerto Rico.

Groups applicable to Type 46:

C, superior (tripas, medios, coronas, etc.).
X, inferior (pie inferior, tripa inferior, pajizas, rezagos, etc.). Y, defectuoso (boliche, sentido, cacho duro, amarillo, salchocado, etc.).
S, scrap (pedazos and picadura). N, nondescript (averiado and mohoso).

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Groups applicable to Types 51, 52, and 53:

A, wrappers. B, binders, seconds, and brokes. C, fillers and short darks. X, stemming grades. Y, sand-leaf fillers or ground leaves. S, scrap. N, nondescript.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

Groups applicable to Types 54 and 55:

B, binders. C, fillers. X, stemming grades. Y, sand-leaf fillers or bottom leaves. S, scrap. N, nondescript.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

Groups applicable to Types 61 and 62:

A, wrappers. B, stout wrappers and binders. C, fillers or tips. X, filler brokes. S, scrap. N, nondescript.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 71: Eastern Ohio (flue-cured, fire-cured, or air-cured).

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba (Havana).

Type 82: Sumatra and Java.

Groups applicable to Types 81 and 82:

A, wrappers. C, fillers. S, scrap.

Type 83: Philippine Islands (Manila).

Groups applicable to Type 83:

C, fillers. S, scrap.

Type 84: All foreign-grown cigar leaf not otherwise classified.

Type 90: Foreign-grown cigarette tobacco (Turkish and other).

Table 1.-Acreage, yield per acre, production, price per pound, and crop value of tobacco, total in the United States, by classes, by types, and by types within States, 1934-38

Table 1.—Acreage, yield per acre, production, price per pound, and crop value of tobacco, total in the United States, by classes, by types, and by types within States, 1934-38 - Continued

CIGAR LEAF, TYPES 41-62											
Year	Acreage	Yield per acre	Production per 1,000 pounds	Price per pound	Crop value 1,000 dollars	Year	Acreage	Yield per acre	Production per 1,000 pounds	Price per pound	Crop value 1,000 dollars
1934	56,800	1,289	73,236	16.8	12,282	1937	85,900	1,223	105,066	18.1	19,004
1935	67,900	1,295	87,943	17.0	14,982	1938	91,500	1,177	107,651	16.1	16,324
1936	73,200	1,337	97,856	19.4	19,016						

1/ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 11 and in the multilith publication, Income Parity for Agriculture, pt. I, sec. 2.

2/ Pounding of types not marketed is included as follows: Fire-cured 6,500,000, Burley 18,000,000, and Dark Air-cured 2,000,000.

3/ Subject to revision.

4/ Including loss after harvest as a result of hurricane and flood estimated as follows: Broadleaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds. Price and value apply only to the marketable portion of the crop.

1/ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 11 and in the multilith publication, Income Parity for Agriculture, pt. 1, sec. 2.

2/ Subject to revision.

3/ Including loss after harvest as a result of hurricane and flood estimated as follows: Massachusetts - 1,258,000 pounds, and Connecticut - 4,697,000 pounds. Price and value apply only to the marketable portion of the crop.

4/ Production in 1934 includes poundage not marketed.

^{1/} The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1934, for example, are for crops harvested in summer and fall of 1934; in Southern Hemisphere they are for crops harvested in spring of 1935. For many countries bordering on the Equator, harvest started late in 1934 and was completed in early months of 1935. Countries listed in this table produce approximately 95 percent of the tobacco of the world.

^{2/} Preliminary. Data for earlier years may be revised on basis of later information.

^{3/} Data shown are for 20 Provinces only, but missing data are of slight importance.

^{4/} British India and reporting native States.

^{5/} European production and native production bought up by European estates from natives on estates plus official estimate of exports of native production (krossok) produced off estates.

^{6/} Including China.

Bureau of Agricultural Economics. Compiled from official sources, International Institute of Agriculture, and reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

¹/ Based on 20 or more lots of each grade. For types 21, 22, and 23, averages calculated on basis of rejections eliminated plus inclusion of Association deliveries at advance prices.

²/ Key to standard grade marks for flue-cured tobacco:

Group	Quality	Color	Special factor
A, wrappers.	1, choice.	L, lemon.	V, greenish tinged.
B, leaf.	2, fine.	F, orange.	M, mixed.
H, smoking leaf.	3, good.	R, mahogany.	K, off color.
C, cutters.	4, fair.	D, dark red.	U, unsound.
X, lugs.	5, low.	G, green.	W, doubtful keeping order.
P, primings.	6, common.		
N, nondescript.			

³/ Key to standard grade marks for fire-cured tobacco:

Group	Quality	Color	Length	Special factor
A, wrappers.	1, choice.	L, light.	46, 24 to 28 inches.	V, greenish tinged.
B, heavy leaf.	2, fine.	F, brown.	45, 20 to 24 inches.	K, variegated.
C, thin leaf.	3, good.	D, dark.	44, 16 to 20 inches.	U, unsound or damaged under 20 percent.
X, lugs.	4, fair.	M, mixed.	43, under 16 inches.	W, doubtful keeping order.
N, nondescript.	5, low.	G, green.		

⁴/ Key to standard grade marks for Burley tobacco:

Group	Quality	Color	Special factor
A, wrappers.	1, choice.	L, buff or straw.	V, greenish tinged.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	K, variegated.
C, lugs or cutters.	4, fair.	D, dark red.	W, doubtful keeping order.
X, flyings.	5, low.	G, green.	U, unsound or damaged under 20 percent.
N, nondescript.

Table 6.-Season average prices per 100 pounds of tobacco, by types and grades, on representative markets, 1934-38 - Cont'd

1/ Key to standard grade marks for flue-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, lemon.	V, greenish tinged.
B, leaf.	2, fine.	F, orange.	M, mixed.
H, smoking leaf.	3, good.	R, mahogany.	K, off color.
C, cutters.	4, fair.	D, dark red.	U, unsound.
X, lugs.	5, low.	G, green.	W, doubtful keeping order.
P, primings.	6, common.		
N, nondescript.			

2/ Government grading of type 11(a) was discontinued on Dec. 12, 1935.

3/ Prices are not exactly comparable with prices for previous years, as figures have been rounded. For types 21, 22, 23, 24, and 36, beginning 1936 averages calculated on basis of rejections eliminated plus inclusion of Association deliveries at advance prices.

4/ Comparable figures are not available for 1938.

5/ Key to standard grade marks for fire-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, light.	46, 24 to 28 inches.	V, greenish tinged.
B, heavy leaf.	2, fine.	F, brown.	45, 20 to 24 inches.	K, variegated.
C, thin leaf.	3, good.	D, dark.	44, 16 to 20 inches.	U, unsound or damaged under 20 percent.
X, lugs.	4, fair.	M, mixed.	43, under 16 inches.	W, doubtful keeping order.
N, nondescript.	5, low.	G, green.		

6/ Key to standard grade marks for Burley tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, buff or straw.	V, greenish tinged.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	K, variegated.
C, lugs or cutters.	4, fair.	D, dark red.	W, doubtful keeping order.
X, flyings.	5, low.	G, green.	U, unsound or damaged under 20 percent.
N, nondescript.			

7/ Prior to 1936 tip grades were indicated by special factor or length.

8/ Key to standard grade marks for Green River tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>
B, heavy leaf.	1, choice.	L, light.	46, over 24 inches.
T, tips.	2, fine.	F, brown.	45, 20 to 24 inches.
C, thin leaf.	3, good.	R, red.	44, 16 to 20 inches.
X, lugs.	4, fair.	D, dark.	
N, nondescript.	5, low.	M, mixed.	
		G, green.

September	13.7	4.6	5.6	6.7	6.1
December	13.7	4.6	5.6	6.7	6.1
1939					
March ^{2/}	13.7	4.6	5.6	6.7	6.1

^{1/} Prices were obtained from approximately 4 dealers in each of 32 large cities as of the 15th of the month, for the brand and/or package size most in demand in their stores, and have been weighted by population of the metropolitan areas and of adjacent areas, where the retail prices were obtained. Sales taxes are included wherever applicable.

^{2/} Preliminary.

Bureau of Agricultural Economics. Compiled from reports of the Bureau of Labor Statistics.

- 1/ Subject to revision.
- 2/ One warehouse not included for 1938.
- 3/ No market.
- 4/ Includes Association sales at advance prices.
- 5/ Includes estimates or resales.
- 6/ No sales of type 24.
- 7/ Gross sales.
- 8/ Includes Camp Taylor, Ky., and New Albany, Ind.; no market at New Albany in 1937-38.
- 9/ No sales of Burley.
- 10/ Includes sales to Federal Surplus Commodities Corporation.
- 11/ Data not available.

Compiled from reports of State departments of agriculture; tobacco growers' association reports; trade reports; data received from Agricultural Adjustment Administration; and information received direct from markets and from field representatives.

Table 10.-Country sales of tobacco in types 22 and 23, 1929-38

Crop year	Type 22			Type 23		
	Sales	Value	Average price	Sales	Value	Average price

1/ Key to standard grade marks for Connecticut shade-grown tobacco:

Group	Quality	Color	Special factor	Length
A, wrappers.	1, first.	L, golden brown.	K, variegated.	8 1/2, 8 to 9 inches.
B, stout wrappers and binders.	2, second. 3, third	F, light brown. R, reddish brown.	P, sand-leaf primings. U, unsound or damaged	9 1/2, 9 to 10 inches. 10 1/2, 10 to 11 inches.
C, fillers or tips.	4, fourth.	G, green.	under 20 percent.	11 1/2, 11 to 12 inches.
X, filler brokes.	5, fifth.		V, greenish tinged.	12 1/2, 12 to 13 inches.
S, scrap.			W, doubtful keeping	13 1/2, 13 to 14 inches.
N, nondescript.			order.	14 1/2, 14 to 15 inches.
			X, broken wrappers.	15 1/2, 15 to 16 inches.
			Y, string-tied and	16 1/2, 16 to 17 inches.
			unsorted.	17 1/2, 17 to 18 inches.
				18 1/2, 18 to 19 inches.
				19 1/2, 19 to 20 inches.
				20 1/2, 20 to 21 inches.
				21 1/2, 21 to 22 inches.

2/ No first primings; other than first primings subject to revision.

3/ Includes mixed.

4/ Includes inferior grades not colored.

5/ Includes bales sized to 4 inches and unsized.

1/ No A group in this type.

2/ Prior to 1936 included in the X group.

3/ No A or B group in this type.

4/ B group added in October 1937 to include stocks of binder type sun-grown tobacco produced in Georgia and Florida.

5/ Stocks on the island of Puerto Rico are not included.

1935	2.1	4.7	6.8	2.6	65.0	1938 ^{4/}	3.6	6.1	9.7	---	70.0	
1936	2.7	4.2	6.9	1.0	69.0							

^{1/} Data for earlier years are published in the First Annual Report on Tobacco Statistics, Statistical Bulletin No. 58, Bureau of Agricultural Economics, and succeeding annual reports.

^{2/} Stocks as of July 1 and disappearance beginning July 1.

^{3/} Stocks shown represent those held by dealers and manufacturers who are required by law to file quarterly reports. Farm-sales weight is calculated by converting stemmed to unstemmed and storage weight to farm-sales weight, by allowing for normal losses of dirt, sand, moisture, and stem in handling and preparing tobacco.

^{4/} Preliminary.

^{5/} Stocks as of January 1 of year following production, and disappearance beginning January 1 of year following production.

^{6/} The 1937 stocks appear to be out of line and are subject to revision. For this reason the 1936 and 1937 disappearance can not be made comparable.

^{7/} Including loss after harvest as a result of hurricane and flood estimated as follows: Broadleaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds.

^{8/} Since the bulk of the crop is harvested prior to October 1, stocks reported as of that date include a large part of the current season's production. As a result of this degree of double counting (exactly how much it is difficult to determine) the supply figures shown here are larger than actual supply.

Bureau of Agricultural Economics. Production and stocks compiled from reports of the Agricultural Marketing Section.

^{1/} This table replaces table 16, in Statistical Bulletin No. 58 and succeeding data on per-capita consumption in table 18, Statistical Bulletin No. 63, and table 23, Statistical Bulletin No. 67.

^{2/} Available data 1900-09 do not include tax-paid products from the Philippine Islands and Puerto Rico and are for the fiscal year beginning July; 1910-38 data include tax-paid products from the Philippine Islands and Puerto Rico and are for the calendar year. In the former group, January population was used, while in the latter group July population was used, to determine the per-capita consumption.

^{3/} Pounds of cigars and cigarettes represent unstemmed equivalent of tobacco used in the manufacture of these products, as reported in the annual reports of the Commissioner of Internal Revenue. Both large and small cigars and large and small cigarettes are included.

^{4/} Tax-paid withdrawals of manufactured tobacco have been separated into chewing tobacco and smoking tobacco in proportion to production of these two products. Scrap chewing tobacco, which was not reported separately prior to 1931, has been estimated from 1900 to 1930.

^{5/} Preliminary.

Bureau of Agricultural Economics. Compiled from tax-paid withdrawals in the United States (including tax-paid withdrawals of tobacco products from the Philippine Islands and Puerto Rico) reported in monthly statements by the Commissioner of Internal Revenue, and population from reports of the Bureau of the Census.

Total	18,582	16,246	17,491	20,549	14,760	

1/ The export statistics in this table are on the basis of crop years. Crop years are as follows: Flue-cured, year beginning July; Maryland, year beginning January of year following production; all other types, year beginning October. These figures do not include shipments to Puerto Rico; no shipments were made to Alaska and Hawaii.

2/ Preliminary. 3/ Includes Hong Kong and Kwantung.

4/ Beginning May 6, 1938, the United States trade with Germany includes Austria; for comparable figures in earlier years add Austria and Germany. 5/ Exclusive of Algeria, Tunisia, and Madagascar.

6/ Includes Gold Coast, Nigeria, and other British West Africa. 7/ Includes Canary Islands.

8/ Includes Eastern Ohio, type 71.

9/ Black Fat, Water Baler, and Dark African are composed principally of fire-cured and One Sucker tobacco, which have been treated with oils and greases, packed in boxes, bales, and tierces, and subjected to heavy pressure. Approximate percentages are two-thirds One Sucker and one-third fire-cured. In some cases a small amount of flue-cured might be substituted for that portion of one of the other types. 10/ Exclusive of Mozambique. 11/ Exclusive of Bermuda, Barbados, Jamaica, Trinidad and Tobago. 12/ Less than 500 pounds.

Bureau of Agricultural Economics. Compiled from Monthly Summary of Foreign Commerce of the United States and official records of the Bureau of Foreign and Domestic Commerce. Export weight.

^{1/} This table brings to date Table 26 in the First Annual Report on Tobacco Statistics, Statistical Bulletin No. 58, issued May 1937.

^{2/} Tobacco imported from the Philippine Islands is free of duty.

^{3/} This rate was established by the Netherlands Trade Agreement, which became effective February 1, 1936. From that date until June 30, 1936, the rate on unstemmed wrapper tobacco was \$1.875, and on stemmed wrapper tobacco, \$2.525. The present reduced rates on this tobacco have been in effect since July 1, 1936.

^{4/} The rate was reduced under the Trade Agreement with Turkey, effective May 5, 1939.

^{5/} The rate was reduced under the Trade Agreement with the United Kingdom, effective January 1, 1939.

^{6/} Under the treaty of commercial reciprocity concluded between the United States and Cuba in 1902, which is continued in effect by section 316 of the Tariff Act of 1930, imports of Cuban tobacco into the United States are entitled to a reduction of 20 percent from the prevailing rate paid by any other country. The only exception to this rule was the Cuban Trade Agreement of September 3, 1934, which established specific rates for certain classes of tobacco; the tobacco concessions of this agreement were terminated March 16, 1936. The rates above listed for tobacco from Cuba have been computed by applying the 20 percent preferential reduction first to the rates established in the Tariff Act of 1930, and, for the present rate, to the reductions granted by existing Trade Agreements with other countries.

Continued -

Table 31.-Tariff rates on tobacco and tobacco products imported into the United States; established by the Tariff Act of 1930, and subsequent changes - Cont'd

7/ From September 3, 1934, to March 16, 1936, the rate on unstemmed wrapper tobacco was \$1.50 per pound under the Cuban Agreement; the Agreement also provided that total imports of tobacco and tobacco products from Cuba were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during preceding year. With the termination of tobacco concessions in the Cuban Agreement, the Cuban duty became based on the new rates established under the Trade Agreement with the Netherlands. From February 1 until June 30, 1936, the Netherlands rate was \$1.875 per pound; after that date it was further reduced to \$1.50. The Cuban duty for both periods became 20 percent less than the Netherlands rate.

8/ Under the Netherlands Trade Agreement, effective February 1, 1936, the rate on stemmed wrapper tobacco was reduced to \$2.525 per pound for the period February 1 to June 30, after which a further reduction to \$2.15 per pound was made. The Cuban duty in the earlier period and at the present time, is 20 percent less than that established in the Netherlands agreement.

9/ Reduced as a result of the Trade Agreement with Turkey, effective May 5, 1939, in which the rate on unstemmed cigarette leaf, n.s.p.f. became 30 cents per pound.

10/ Under the Cuban Agreement, from September 3, 1934, to March 16, 1936, the rate on unstemmed filler tobacco (including cigarette leaf n.s.p.f.) was set at 17½ cents per pound, and on stemmed filler tobacco at 25 cents per pound; total imports of Cuban tobacco during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level.

11/ Reduced as a result of the Trade Agreement with the United Kingdom, effective January 1, 1939, in which the rate on tobacco, manufactured or unmanufactured n.s.p.f. became 35 cents per pound.

12/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on scrap tobacco was set at 17½ cents per pound, and on cigars at \$2.25 per pound plus 12½ percent ad valorem; total imports of Cuban tobacco during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level.

13/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on cigarettes was set at \$2.25 cents per pound plus 12½ percent ad valorem, with a quota limit on total Cuban tobacco imports of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of the tobacco concessions in the Cuban Agreement, this rate returned to the 1930 Tariff Act level. The Trade Agreement with the United Kingdom, effective January 1, 1939, reduced the rate on cigarettes to \$2.25 cents per pound plus 12½ percent ad valorem, and the present Cuban rate is derived from this latter duty.

Bureau of Agricultural Economics. Compiled from the Tariff Act of 1930, trade agreements, and other official sources.

1/ The exchange value of the Canadian dollar in United States currency was practically at par during the period 1936-39. 2/ Provided that the duty shall be levied on the basis of "Standard leaf tobacco" consisting of 10 percent of water and 90 percent of solid matter. 3/ Special excise tax, 3 percent of the duty-paid value, in effect since April 7, 1932, removed on April 26, 1939, under terms of second trade agreement with Canada. This tax did not apply to raw leaf tobacco when imported by licensed tobacco or cigar manufacturers. 4/ British preferential tariff rate on this type of tobacco, 20 and 30 cents per pound on unstemmed and stemmed, respectively. 5/ Excise tax repealed and import duty imposed, i.e., prior to May 2, 1936, there was no import duty but an excise tax of like amount on raw leaf tobacco under the Canadian Excise Act.

Jan. 1 - Apr. 25	10s.6 ¹ / ₂ d.	2.47
Apr. 26	12s.6 ¹ / ₂ d.	2.94

1/ Conversions into United States currency made at average annual exchange 1936-38, and average January-June 1939. 2/ Existing margin of preference to Empire countries bound, under trade agreement with the United Kingdom, effective January 1, 1939. Under the Ottawa Agreements Act, 1932, Empire leaf tobacco was assured a margin of preference over foreign leaf of 2s.0¹/₂d. per pound until August 1942.

OTHER COUNTRIES 1/

Country and period	Import duty	Other restrictions
France: 1936-39	Free	Government monopoly 2/
Italy: 1936-39	do.	do.
Sweden: 1936-39	do.	do.
Japan: 1936-39	3/ do.	do.

1/ From the standpoint of markets for American tobaccos, these countries are the most important of those having government monopolies. 2/ Par. 11 of the protocol to the trade agreement with France, effective June 15, 1936, contains a guarantee that purchases of American leaf tobacco in the United States by the French Tobacco Monopoly during the course of the 1936 season will not be less than 45,568,000 francs in value and not less than 9,300,000 kilos (20,500,000 pounds) in weight. 3/ Duty-free if imported by monopoly; otherwise 355 percent ad valorem, cost, insurance, and freight basis.

Office of Foreign Agricultural Relations. Compiled from International Customs Journal, Board of Trade Journal, official tariff publications of United Kingdom, Australia, Canada, China, and Germany, and information furnished by the Division of Foreign Tariffs, United States Bureau of Foreign and Domestic Commerce.

This tabulation brings to date Table 27 in First Annual Report on Tobacco Statistics (with basic data), Statistical Bulletin No. 58, and adds data for Denmark, Eire (Ireland), Poland, Japan, and Sweden.

Table 33.--Rates of State tax on tobacco products in effect April 1939

State	Date tax first went into effect:	Product and rate of tax
Alabama	1927	Cigars weighing more than 3 pounds per 1,000, retailing for - (a) 3-1/3 cents each or less, \$1 per thousand. (b) More than 3-1/3 and not more than 5 cents each, \$2 per thousand. (c) More than 5 and not more than 8 cents each, \$3 per thousand. (d) More than 8 and not more than 10 cents each, \$5 per thousand. (e) More than 10 and not more than 20 cents each, \$10 per thousand. (f) More than 20 cents each, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10. Cigarettes: 3 inches long or less and weighing not more than 3 pounds per 1,000, when packed in quantities of - (a) 10 or less, 2 cents per package. (b) More than 10 and not more than 20, 3 cents per package. (c) More than 20, 1 1/2 mills each. More than 3 and not more than 6 inches long and weighing not more than 6 pounds per 1,000, when packed in quantities of - (a) 10 or less, 5 cents per package. (b) More than 10 and not more than 20, 10 cents per package. (c) More than 20, 3 mills each. More than 6 inches long and weighing more than 6 pounds per 1,000, when packed in quantities of - (a) 10 or less, 5 cents per package. (b) More than 10 and not more than 20, 10 cents per package. (c) More than 20, 6 mills each. Other dimensions and weights, 1 cent each. Smoking tobacco, 1 cent for each 5 cents or fraction thereof of retail price. Chewing tobacco and snuff, 1/2 cent for each 5 cents or fraction thereof of retail price.
Arizona	1933	Cigars weighing more than 3 pounds per 1,000, retailing for - (a) 5 cents each or less, 1 cent for each 3. (b) More than 5 cents, 1 cent each. Weighing not more than 3 pounds per 1,000, 2 cents for each 20 or fraction thereof. Cigarettes, 2 cents for each 20 or fraction thereof. Smoking tobacco and snuff, 1 cent per ounce or major fraction thereof. Cavendish, plug, or twist, 1/4 cent per ounce or fraction thereof.
Arkansas	1924	Cigarettes, \$2.50 per thousand.
Connecticut	1935	Cigarettes, 1 mill each.
Georgia	1923	Cigars, cheroots, and stogies, retailing for - (a) 3-1/3 cents each or less, \$1 per thousand. (b) More than 3-1/3 and not more than 5 cents each, \$2 per thousand. (c) More than 5 and not more than 8 cents each, \$3 per thousand. (d) More than 8 and not more than 10 cents each, \$5 per thousand. (e) More than 10 and not more than 20 cents each, \$10 per thousand. (f) More than 20 cents each, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10. Cigarettes: 3 inches long or less and weighing not more than 3 pounds per 1,000, 1 1/2 mills each. More than 3 and not more than 6 inches long and weighing not more than 6 pounds per 1,000, 3 mills each. More than 6 inches long and weighing more than 6 pounds per 1,000, 6 mills each.
Iowa	1921	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.
